

INFO	INFO	LION SHAVING
 <p>South Africa, officially the Republic of South Africa (RSA)</p>	<p>Due to worldwide ostracism under apartheid, most South African products were not labeled as their product. Markings of graphic plants are helpful in several cases. We got a few packages from the factories (part we got with blades, part was not put on a razor blade)</p>	  <p>The Lion Match Company (PTY) Ltd from Durban is a big RSA manufacturer of matches, razor blades and shaving products, shoe polish and others.</p>

ZIMBABWE

National

South Africa had many historical ties to the Netherlands (First colony - Cape was originally a Dutch colony and Afrikaans is derived from Dutch), which is why licensed National razor blades have inscriptions similar to the original Nationaal.
