

INFO

Morocco, officially the Kingdom of Morocco

INFO

In Morocco, razor blades were produced in-house (Fabrique Nationale de lames de Rasoir in Casablanca) and under license (Gillette France). Brand counterfeiting was also popular (like Filette, Fi.Leytte, Naset, Nacito)

a crude imitation of the French Minora

**MINORA**

Gillette France built a production facility in Casablanca. The company was named "Societe Interlame du Maroc". Most production was under name Minora (used by Gillette for export blades). Only in the end of 90's (probably after the closure of production in France) - blades were also produced under the name "Gillette"
